Discover the Iconsys difference

Totally platform independent

We don't favour one technology over others. We recommend the one that meets the project requirements. That's why manufacturers depend on us as a systems integration partner for their platforms, from control systems to ERP systems and beyond.

A wealth of expertise

Specialists in ERP platforms, operational technology and process data historians, our highly experienced and qualified team is dedicated to finding the right solution for you.

Support throughout and beyond

We'll take you through every single stage of your project, from design, build, configuration, integration and start-up, to commissioning, business integration, operational consulting and 24/7 remote monitoring.
